

SUBJECT: California's Proposition 65

On August 30, 2016, Proposition 65, Article 6 was amended to make warnings more meaningful to the public. Manufacturers were asked to comply with new warning requirements beginning August 31, 2018.

In response to the new requirements, Pacer Pumps will be adding on-product warning labels to complete pump assemblies and plastic parts, where practical. In situations where labeling is not practical, we will provide warnings on the packaging, shipping carton and packing list. In addition, our suppliers will be adding labeling for their specific components. Our website will include a Prop 65 tab which provides basic info and linkage to the "Safe Drinking Water and Toxic Enforcement Act of 1986".

Pacer Pumps Short Form Warning

NOTE: California Prop 65 only applies to products sold to consumers within the state of California.
